

Internship Program in Syensqo

SYENSQO
ADVANCING HUMANITY

Business Overview

Rising from

160

years of pioneering spirit

YEARS

For 160 years, we have nurtured a culture of innovation, a pioneering spirit.

For 160 years, our passion for science has been passed down from generation to generation, so that each of our innovations is the starting point for tomorrow's great discoveries.

For 160 years, we've been reinventing ourselves. Because immobility is science's worst enemy, we are constantly challenging our certainties to advance science, our society and humanity as a whole.

Starting today, a new page in our history is being turned. Inspired by the vision and dedication of Ernest Solvay We are looking at the next 160 years with excitement and serenity.

Ready to unlock the power of two champions.

Our manifesto

**The future is rich with
unexplored possibilities.
We are explorers.**

**People from many horizons who dream the impossible,
solve the unsolvable, partnering to pioneer the future of
science.**

**Because a sustainable future starts with our commitment,
our solutions and innovations are the catalysts that open
new frontiers for the planet and its people.**

**We are Syensqo,
explorers creating breakthroughs
that advance humanity**
